Recogito 2
A Linked Data Annotation Tool for Texts and Images

Rainer Simon, AIT Austrian Institute of Technology @aboutgeo
Leif Isaksen, University of Lancaster @leifuss
Elton Barker, The Open University @eltonteb
Rebecca Kahn, Alexander von Humboldt Inst. for Internet & Society @rebamex
Valeria Vitale, Institute of Classical Studies @nottinauta
Background | What is Pelagios?

- A series of projects
- Creating *Linked Open Data* of place references in historical sources
- Developing software *Recogito, Peripleo* to assist this process
- A *Commons* dependent upon a wider community
Linked Data Annotation

What is it?
Why do it?
Linked (Geo) Data Annotation

What is it?

The Essential Ingredient | URI Gazetteers

Pleiades

31,561 Ancient Places
26,055 Ancient Names
32,337 Ancient Locations

Pleiades gives scholars, students, and enthusiasts worldwide the ability to use, create, and share historical geographic information about the Greek and Roman World in digital form. Browse, search, follow, or join and contribute. Find the most recently published resources in the map below.

Contributors

Senior Editors: Roger Bagnall and Richard Talbert
Managing Editors: Tom Elliott and Brian Turner
Associate Editor: Michael McCormick
Chief Engineer: Sean Gillies

Pleiades is a joint project of the Ancient World Mapping Center, the Stoa Consortium, and the Institute for the Study of the Ancient World. It is supported by its institutional partners and by the U.S. National Endowment for the Humanities. For a complete listing of contributors, please see the credits.

Recogito | Linked Data Annotation for Texts and Images

https://vimeo.com/173747254

http://recogito.pelagios.org
https://twitter.com/aboutgeo/status/787963853846052864
Recogito | Some Highlights

- Free & Open Source
- Personal workspaces
- Access control and sharing for collaboration
- Versioning
- Import plaintext, images in different formats, CSV tables
- Annotated images served through IIIF
- Get your data out in a range of formats: CSV, RDF, GeoJSON
Outlook | Some Plans

- Support for TEI (text) import
- Internationalization (interest in Spanish, Croatian)
- Gazetteers!

and (depending on future funding...)

- Features for managing group/classroom work
- Exploring others’ (public) work & discovering related material
- Enhanced modes of collaboration – forking & merging
- IIIF collection support
- ...
